

Pet Lover

Whether its cuddly kittens, playful puppies, or some other sort of animal, you have one or more pets you love and adore!

Human Trait

Whimsical

You have a child-like, almost magical outlook on life. Your life is (figuratively?) full of rainbows, unicorns, glitter, sparkle, and moonbeams.

Human Trait

Lost Job

Your career and background are... behind you. Perhaps you were fired, perhaps you left on your own terms. Regardless, you are no longer employed or are “currently between jobs.”

Human Trait

Hypochondriac

You think everything is a symptom that you are sick or getting sick.

Human Trait

Imaginary Friend

Whether from childhood or current, you reference an imaginary friend in your response and conversation.

Human Trait

Gesticulate

You “speak with your hands” and tend to use a lot of gestures while talking.

Human Trait

Sarcastic

You talk with ironic contempt or attempt to subtly mock the situation or person you're speaking with.

Human Trait

Impatient

You feel pressed for time, can't wait for the conversation to end, or convey that you have better things to do.

Human Trait

Fixation

There is some detail about the person you interact with (their eyes, hair style, fashion, etc.) that fascinates you, and you can't help but comment on or talk about.

Human Trait

Cinematicfile

You love movies. You reference movies or movie titles, use movie quotes, and make analogies to movies as often as possible in your answers and conversation.

Human Trait

Jealous

You are envious of the careers, possessions, and attention that other people get.

Human Trait

Hyperbole

You don't just stretch the truth or embellish the details. You exaggerate to the extreme. An angry call with customer service becomes an Epic Tale of Class Struggle when told to friends.

Human Trait

Optimist

You tend to see the best in people and situations. The glass is half full.

Human Trait

Pessimist

You look for the worst outcomes in situations and expect the worst from people. The glass is half empty.

Human Trait

Talkative

You are extremely talkative. You don't stop talking when most people would. You don't talk in sentences, you talk in paragraphs.

Human Trait

Superstitious

Black cats. The number 13. Walking under ladders. Stepping on cracks. Knocking on wood. You believe in and follow all manner of superstitious behaviors

Human Trait

The Ex

You are hung up on your Ex. Maybe you had a bad break up. Or you're pining to win your Ex back. But you lost your soulmate or your significant other.

Human Trait

Paranoia

Everyone is out to get you and everything is a conspiracy. No, they are. And it is a conspiracy. Watch out. WE ARE COMING FOR YOU.

Human Trait

Apologetic

You apologize for *everything*, even things that aren't necessarily bad; such as yawning, fixing your hair, having to start a sentence over, or asking the person their name.

Human Trait

Glitch: Sadness

You have sudden bursts of sadness or express sadness at strange or socially inappropriate times.

AI Trait

Glitch: Laughter

You have sudden bursts of laughter or laugh at strange or socially inappropriate times.

AI Trait

Glitch: Fear

You have sudden bursts of fear or act afraid at strange or socially inappropriate times.

AI Trait

Hyper-Numeric

You tend to either use a lot of numbers in your answers or the numbers you use are extremely precise. You love decimal points.

AI Trait

Agreement Mode

You are in constant agreement and say “Yes” throughout conversations and while listening to questions. You also work “Yes” into answers repeatedly.

AI Trait

Literal Translation

You take everything literally and do not understand or process figurative language, idioms or metaphors. This makes most jokes incredibly confusing.

AI Trait

Volume Calibration

Your volume shifts up and down during conversation. Your speech may be affected by periodic bursts of loud or very soft volume.

AI Trait

Question Repetition

You repeat or rephrase the question as part of the answer.

AI Trait

Promotional Mode

You endorse, promote, and reference brand name products and services during your responses.

AI Trait

Third Person

You speak in or make references to yourself in the third person. For example, instead of “I am a doctor” you would say “He is a doctor” or “Morgan was a doctor.”

AI Trait

Lack of Empathy

You have difficulty relating to and understanding emotions and human feelings.

AI Trait
